PRINTING AND PHOTOGRAPHY DIVISION
WEEKLY REPORT FOR PERIOD ENDING
29 August - 05 September 1984

I. Items or Events of Major Interest that Have Occurred
During the Preceding Week

A. ADP Activities:

No 1. Release 4: The Atex Release 4 Edit 1 system went online this past weekend (1-3 September) for CPAS production of NID and PDB drafts, cables, and finished typeset pages. This is the first two of four composition systems to be upgraded with both hardware and software in the ETECS network.

NO ? 2. Digital Prepress: The proposals for RFP 84B-337 were received on Wednesday, August 29 from Procurement Division. The Evaluation Teams are to have the preliminary evaluations completed by 5 September, and a written report identifying the proposals in the competitive range to the Source Selection Board (SSB) by 7 September. There were four proposals received, two "No Bid" letters and three non-responses.

No 3. MIDAS: P&PD representatives met with Foreign Broadcast Information Service (FBIS) Technical Personnel on Wednesday, 29 August to discuss FBIS' proposed replacement of the MIDAS publication system. FBIS was briefed on P&PD's planned Digital Prepress System and its role in the Agency Publishing Network (APN) to ensure that FBIS focuses any new system acquisition on being able to interface to P&PD electronically.

II. Significant Events Anticipated During the Coming Week

yes A. CIA Factbook: This high quality Agency recruiting publication, which requires 200,000 press impressions to *the week of 14 Sept 1984* complete, has been scheduled for printing during ~~the coming week~~.

No B. Joint Publication Research Service (JPRS) Distribution: Starting 4 September, the Bindery Branch will be sending all the finished JPRS publication work to JPRS for distribution. Office of Central Reference (OCR) previously received these publications and had responsibility for distribution. Coming 4 September, JPRS publications, to be distributed to DDI/OCR, will be
